

Discover the FUTURE of CAR WRAPPING

Skyfol has expanded the palette of coloured paint protection films. Experience the ultimate fusion of efficient protection, extra durability and style with our high-end wraps that elevate film installation to a new level.

Orange-peel effect
Weaker surface gloss
Colour difference & fading as
time goes by
Shorter durability & lifetime

Excellent smooth surface
Extra shiny surface gloss
No colour difference as
years pass
Longer durability
& lifetime

Car Wrapping Films vs. Coloured PPF

Easy to delaminate during stretching
Not comparable to original factory paintwork
Plastic-like effect
No efficient protection for the car body
No self-healing feature

No delamination during stretching
Comparable to original paintwork
Glass-like effect
Efficient protection against damage
Perfect self-healing feature

The future of car wrapping films is your future!

Why would you go with installing classic PVC car wrapping films, when you can continue your profession at a higher level? Offer your customers more than other workshops by installing PPF combined with stylish colours! Level up your business and start working with coloured paint protection films today!
